

## Sizing Chart for Personalized One-of-a-Kind Leather Collars

My training experience leads me to migrate to a humane collar using a unique combination of materials to aid in the training of dogs that have reacted severely to the use of all-metal collars, but need more control than a standard buckle. This design allows you to make a humane correction without hurting your dog (or his sensitive nature). It allows enough leverage so the dog knows he's being corrected without the over-tightening of the throat and trachea areas.

Please use the below information as an approximate when the need arises to fit dogs not available for precise sizing. The sizes correspond with the weight and bulk of the dog and are only approximate sizing.

Note: The "L" stands for "Large"

Collar Size	Dog Weight	Breed Example
8"	5-9 lbs.	Maltese, Tea Cups, etc.
10"	9-14 lbs.	Dachshunds, small Poodles, Terriers
10"L	14-20 lbs	Jack Russell's, Fox Terriers, small dogs with thicker builds (10" circle with a 4" chain to extend over a large head)
12"	20-30 lbs.	Occasional large breeds with thin necks, like small Greyhounds
14"	30-45 lbs.	Larger breeds with thin necks like Greyhounds, Irish Setters, Dobermans
14"L	45-60 lbs.	Small Labs, small Golden Labs (a 14" circumference with a 5" chain for the larger head)
16"	60-85 lbs.	Golden Labs, Labs, Shepherds
18"	90-110 lbs.	Very big dogs like Rottweilers, Bernese Mountain Dogs, oversized Labs, and Great Danes
20"		Mastiffs, etc.

8", 10" collars	3" chain
10"L, 12", 14" collars	4" chain
14"L, 16", 18" collars	5" chain
